| 9. Soils | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 10. Revegetation | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 11. Air Quality | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 12. Other | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

Purpose of Inspection:

Check progress of the mining activity at the site.

Directions to Site:

See previous inspection report.

Inspection Summary:

CPI was operating at the site removing large boulders. There was a loader, trackhoe and several trucks operating at the site. The rocks were being hauled to St. George.

The area being disturbed was an area in addition to the areas that I gps'd in March of this year. The new disturbance will add about a half an acre to the total disturbance at the site. I did not gps the additional disturbance but will do so during my next visit. Pictures were taken at the site.

Conclusions and Recommendations:

I will continue to monitor the site when I am in the area.

Inspector's Signature

Doug Jensen
